## Welcome to our November update

### Site Progress

- For the Adam Smith Business School, the main areas of focus have been the continuation of mechanical & electrical plant, façade and fixed partition installations.
- Fixed partitions throughout the building are over 80% complete.
- The building is now wind and watertight with roof plant, transformer and switch gear installed.
- The progress of the pre-cast façade installation continues on the west elevation.
- Roof works are 95% complete.

## Creating **positive impact**

### Site Progress (cont.)

- The Institute of Health and Wellbeing is at the final stages, with testing and commissioning at the forefront of the works being carried out.
- The internal fit-out is complete, with the majority of learning and teaching spaces ready for occupation.
- The majority of the works undertaken by the infrastructure project are now largely complete.

### Project Look Ahead

- The Institute of Health and Wellbeing is on course to achieve handover within the next few weeks, with the University subsequently progressing with their remaining works prior to occupation.
- Blue badge bays on University Place will be handed back to the council for use on 05/12/22.
- For the Adam Smith Business School, the next key milestone will be the completion of the roof works which will be completed prior to Christmas.

---

## Community Update

- Multiplex welcomed 35 students over two visits, from City of Glasgow College to the ASBS.
- This was a great opportunity to provide students the chance to see a live construction site and learn more about the wider Campus Development project.
- Earlier this month we hosted an employment event with the DWP and key supply chain partners, facilitating opportunities for candidates to gain work in the construction sector.

---

## Environmental Update

- Multiplex were awarded the inaugural Energy Transition award at the VIBES (Scottish Environment Business) awards.
- This is testament to the great work the Scotland region is doing in putting our One Decade to Act decarbonisation plans into action.
- As part of a Multiplex wide Biodiversity competition, the Campus Development team and wider supply chain visited Pollok Park for an environmental volunteering day.
- Overall we planted 200 trees, removed invasive species and conducted some remedial work to previous planting.
