## Welcome to our March update

- Work continues on the Adam Smith Business School across several fronts, with some key activities now nearing completion.
- Notably, the façade installation nears completion with our specialist partners, Decomo and Charles Henshaw.
- The key areas of focus include; continued installation of raised access flooring throughout the levels, concreting of level 1, drainage works on the west & east elevations as well as preparation for the hard landscaping.

## Site Progress (cont.)

On the Adam Smith Business School:

- The roof work in terms of insulation and weatherproofing is now fully complete.
- Glazed and movable partitions are also fully complete.
- Commissioning has begun on the building as we begin to test installed products and systems.

## Project Look Ahead

- The Adam Smith Business School will continue to progress internal fit out activities.
- With the near completion of the external façade panels, the tower cranes will be brought down in the coming weeks.

## CCS Residents Survey

- We would like to encourage our neighbours and nearby residents to fill out the Considerate Constructors Residents Feedback Survey.
- Please visit the link or scan the QR code for access:  
<https://forms.office.com/e/Q07MwzwxGi>

## Community Update

- We recently ran a number of work experience placements, including a hybrid-style programme where digital construction students from the City of Glasgow College were tasked with a mock brief to design a hotel as part of the Campus development.
- Throughout the week students spent time with various departments and presented their final proposals.
- Overall the programme was a great success, with students taking valuable experience from the week.
- We also welcomed 20 Civil Engineering students from the University of Glasgow for a site visit where they were able to see the theory they had been learning in their Construction Management module put into practice.

Work experience students hosted by Multiplex

## Environmental Update

- Our Sustainability representative presented to the University of Glasgow Urban Society.
- The presentation was focused on best practice, our sustainability goals, and how are we achieving them.

Presenting our ESG Strategy

## Considerate Constructors Scheme

- We welcomed the Considerate Constructors Scheme monitor to the Adam Smith Business School.
- Following the visit we are delighted to announce a score of 45, well above the industry average.
- The project is scored on workforce, community and environmental standards.

Creating **positive impact**
