November 2023

University of Glasgow | Issue No.58

## Headlines in brief

- Welcome
- Site progress
- Working Hours
- Look ahead
- Who to contact

## Welcome to our November update

- The Campus Development team were delighted to scoop not one, not two, but three awards at the Learning Places Scotland Awards 2023, held at a glitzy ceremony at the Hilton Glasgow.  
  
Client of the Year - University of Glasgow  
Consultancy of the Year - AtkinsRéalis  
Contractor of the Year - Multiplex
- The University hosted a successful community engagement event in the new Adam Smith Building on 2 November, thank you to those that could make it along.
- We look forward to hosting many more events in these fantastic new facilities.

## Project Images

*Demolition of the Admin building*

### Site Progress

- The hard landscaping works on the Southern and Eastern elevations of the Adam Smith Building are drawing to a conclusion, with the stairway adjoining Dumbarton Road and St. Mungo's Square due to open in the coming weeks.
- Our demolition contractor, Dem Master, have completed the demolition of the Western Infirmary Lecture Theatre (WILT) and made substantial progress with the Admin building demolition.

### Project Look Ahead

- The site welfare setup consisting of over 60 cabins that made up the Multiplex offices, workforce welfare and subcontractor cabins will be removed involving crane operations. A new site welfare setup has now been put into operation adjacent to the Adam Smith Building and Dumbarton Road.
- The revised hoarding arrangement will be put in place in advance of the next phase of works for the Keystone project. We will communicate this in more detail in the December newsletter.

## Community Update

- The team were made aware of some vandalism at Woodlands Community Garden, resulting in damage to the retaining wall on West Prince's Street.
- Having completed several volunteering activities with Woodlands over the course of the year the team were eager to help. Thanks to the support of Interlocked Construction, the team were able to install some temporary timber bracing to ensure the stability of the wall as a longer-term solution is developed.
- Elinor, Garden & Greenspaces Coordinator at Woodlands Community said, *"we really appreciate their help with this as it gives us some peace of mind..."*

Image (above, right) showing the damage to the wall due to the attached fence being violently shaken and image (below, right) demonstrating the structural bracing that was installed by the team

## Workplace Opportunities

- Multiplex are currently hosting two students from Glasgow Kelvin College who are completing a Foundation Apprenticeship in Civil Engineering. The students spend two days at school, two at college and one onsite.
- During their time with us they will have the opportunity to see first-hand the engineering that goes into constructing such large-scale projects and benefit from access to different members of the project team.

Constructing a better future
