Introduction

Welcome to the latest edition of the University of Glasgow Campus Development newsletter.

This newsletter is issued by the University's appointed project delivery partner, Multiplex, for and on behalf of the Campus Development team. Each newsletter will provide an update from the project including the latest site works as well as a look ahead at planned activities.

The University of Glasgow is currently undertaking a £1.8 billion Campus Development Programme, which includes the redevelopment of the 14-acre former Western Infirmary site, building a mix of modern research, teaching and public spaces.

The new campus will create a rich mix of community, public engagement and social spaces and enhance engagement between the University and the city.

Site Progress

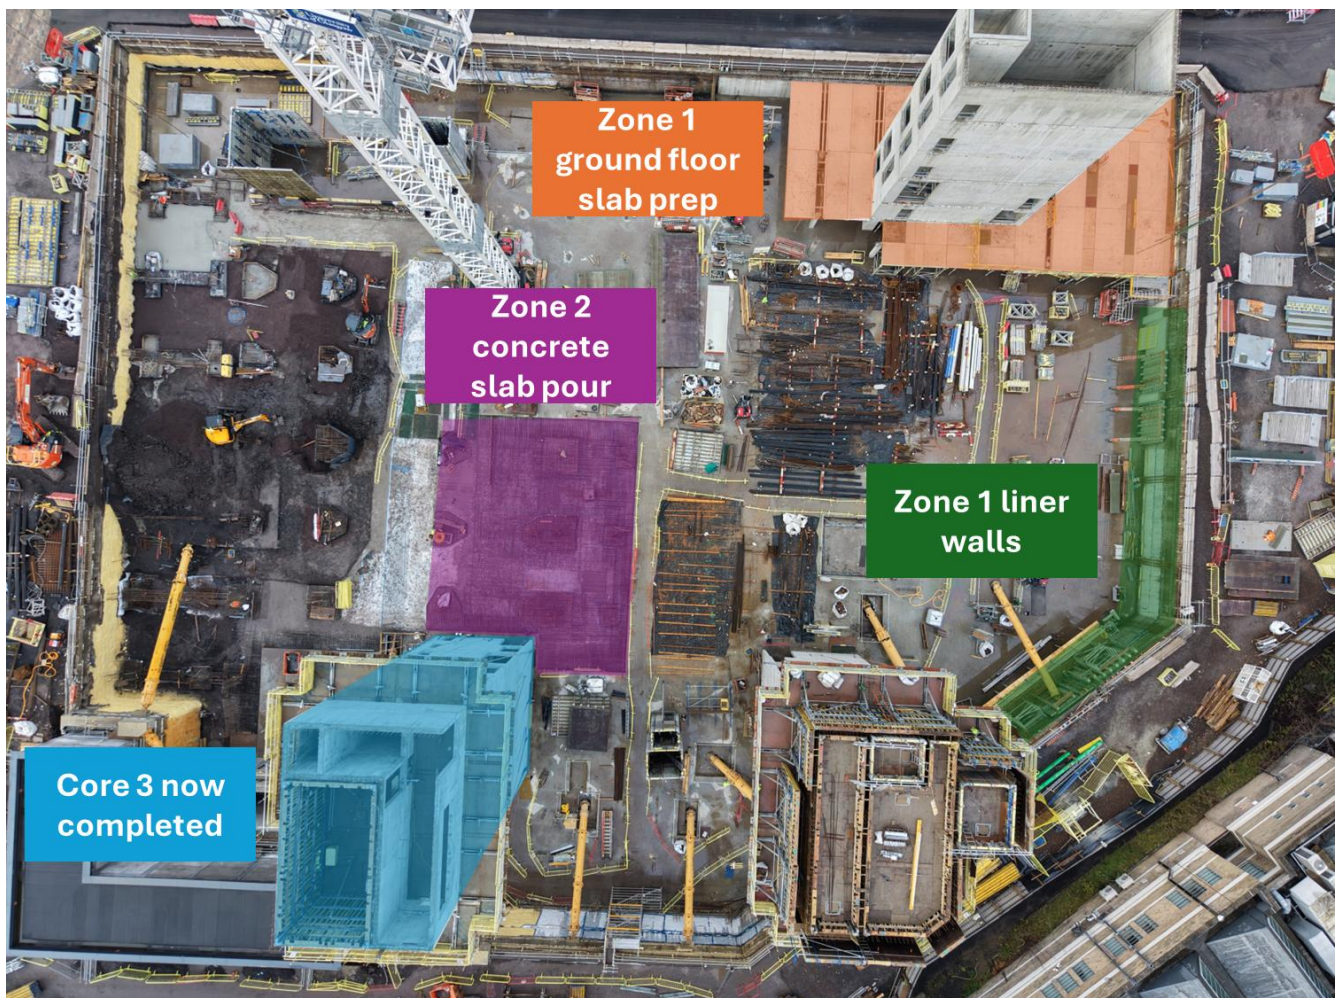

- We were delighted to see so many new and familiar faces at our Campus Development Community Engagement Event at the start of the month, which was opened by University Principal and Vice-Chancellor Professor Andy Schofield. We hope you found the evening informative about the University's current activities and future plans.
- The project team continue to make excellent progress – within the main plot specifically:
 - Core 2 - 2nd last lift of walls poured
 - Core 3 - Completed
 - Core 5 - First lift poured 04/12
 - All basement foundations complete
- Interlocked have started preparatory works to the site compound for the next level of cabins, which will be installed early next year to accommodate the increase in numbers onsite – which is due to peak at 500 in early 2027.

Look Ahead

- The site will be subject to a full shutdown procedure to ensure that the project is safe and secure over the festive period. The site will be closed from Tuesday 23rd December and will reopen on Monday 5th January.

Social Value and Community Update

- The team put on a strong display for Movember and as well as raising funds for this important cause, it also sparked some great conversations around men's physical & mental health - including a talk from the Oddballs Foundation on testicular cancer and how to check yourself.

- The festive spirit was in full swing at the Keystone project with a Christmas lunch put on for the entire workforce, with some excellent Christmas jumpers on show!

- Christmas can be a challenging time for many families, so the team were delighted to play a small part to make this Christmas a little more magical. The Multiplex team supported our Mechanical & Electrical contractor, SES Engineering Services who were collecting on behalf of Cash for Kids - Mission Christmas.

- The team also raised a fantastic £490 to buy presents for the young people at Action for Children's Stoneside facility - which provides short & long term accommodation for people with a variety of learning difficulties and challenging behaviours.

From all of us at the Campus Development team, wishing you a Merry Christmas and a happy New Year!

Site Working Hours

Our standard site working hours, agreed with local authority, are below:

8am – 7pm: Monday to Friday

8am – 1pm: Saturday

There is expected to be times where extended working hours are necessary and in such instances, advance approval is sought from Glasgow City Council.

**REGISTERED
SITE**

**CONSIDERATE
CONSTRUCTORS**

Considerate Constructors Scheme (CCS)

The site is registered with the Considerate Constructors Scheme.

The Scheme promotes high standards and accountability within the construction industry. It is a voluntary scheme, meaning that Scheme-registered contractors and organisations are actively trying to improve the way they work, by raising their standards in being more considerate to communities, the environment and their own workforce.
