Introduction

Welcome to the latest edition of the University of Glasgow Campus Development newsletter.

This newsletter is issued by the university's appointed project delivery partner, Multiplex, for and on behalf of the Campus Development team. Each newsletter will provide an update from the project including the latest site works as well as a look ahead at planned activities.

The University of Glasgow is currently undertaking a £1 billion Campus Development programme, which includes the redevelopment of the 14-acre former Western Infirmary site, building a mix of modern research, teaching and public spaces.

The new campus will create a rich mix of community, public engagement and social spaces and enhance engagement between the University and the city.

Site Progress & Look Ahead

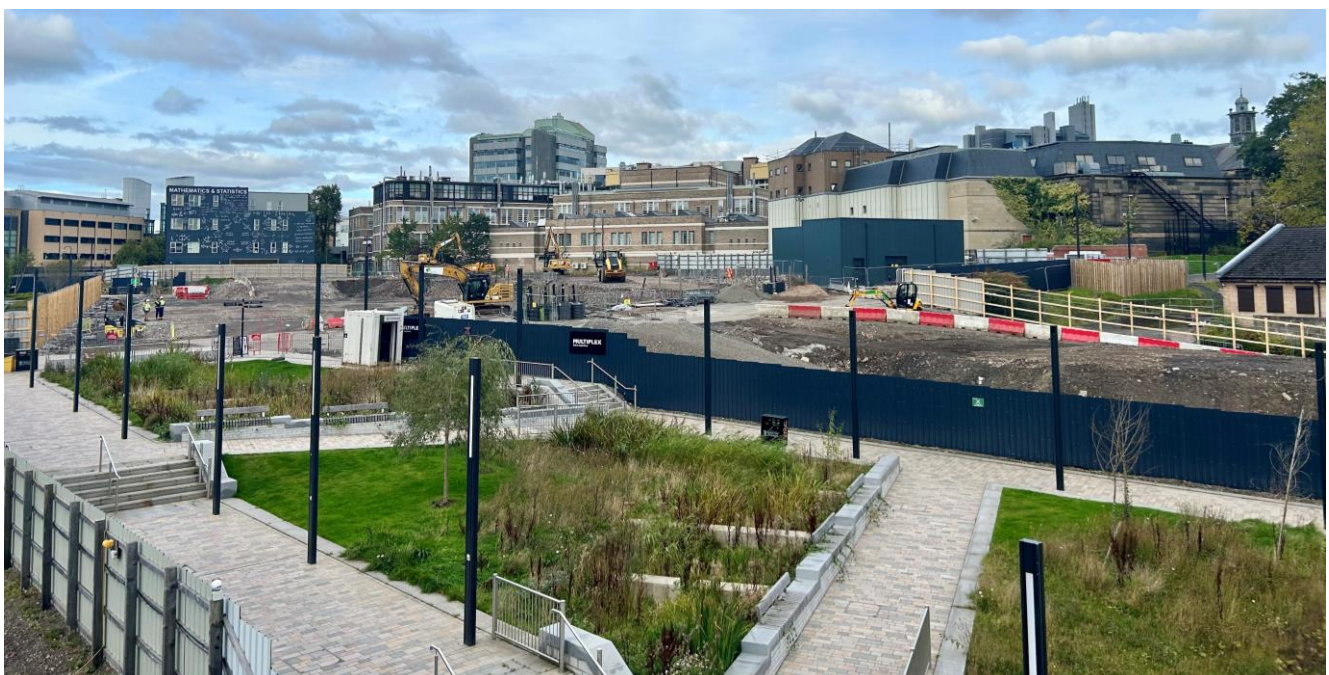

- Temporary works have been put in place to support the piling mat installation around the perimeter of the HV switchroom.
- Cladding removal of the HV switchroom will commence in October.
- The new hoarding line is being installed along the eastern edge of St Mungo Square.
- Preparation is currently underway for the next phase of the Campus Development, subject to planning and University governance.

Hoarding installation along St Mungo Square

Public Update Event

- We are pleased to invite you to a public update meeting hosted by the University of Glasgow to provide an update on the progress of its Campus Development Programme, which is transforming the former Western Infirmary site on Gilmorehill.
- The event will take place on the 7th of November at the Wolfson Medical School, University Ave, Glasgow G12 8QQ, between 5.30pm and 8pm, and we look forward to welcoming you.
- Registration is required. Please sign up using the QR code below or by visiting <https://forms.office.com/e/qf8E7SDn1q>

Awards

Congratulations are in order with a number of awards and commendations for the team over the month:

Roskel not only took home the 'Specialist Installation over £1 million' award, but also the 'Scottish Project of the Year 2024' for the Clarice Pears Building at the **Finishes & Interiors Sector (FIS) Scottish Awards**.

The Communications & Engagement Team at the University of Glasgow were recognised with an 'Award of Excellence' at the **Institute of Internal Communication Awards**.

And finally, the Clarice Pears Building was again recognised – this time in the **Structural Steel Design Awards** with a commendation.

The Judges commented that, *"The building encourages open community engagement concerning health inequalities at street level, while the triangular gridded form generates connections between floor levels around an attractive and welcoming atrium. Team collaboration led to efficient design, fabrication and erection where sustainability, potential adaptability and design for end of life was a central consideration."*

Constructing a better future
